Description:

What is academic writing in Social Sciences? Why is it important to publish in international academic journals? How to deal with the “publish or perish” constraint, while developing innovative and thoughtful social sciences (if that is possible at all)?

The Workshop held by Eloísa Martín, who is an editor of the renowned journal *Current Sociology*, will deal with the tricks and traps of publishing in academic journals.

The **following topics** will be discussed:

- Different kinds of scientific communication
- Where to publish? Tactics and strategies to find the proper journal for your article
- Steps toward a successful article: structure, rules, and conventions
- What is expected? Proceedings for papers submissions: format, style, content
- Common mistakes that everybody knows, but everybody makes
- What a journal expects; What editors are looking for; What reviewers review
- Once it didn't work: strategies for revision and re-submission

Participation in the workshop is limited, registration is required.
